

**SEVERE WEATHER STICK**

The severe weather tool is intended to improve safety in situations where the work must be performed, regardless of weather conditions. The tool provides extra protection from water forming a continuous path down the length of the tool. This will improve the dielectric properties of the tool when used in rain, fog, snow, or sleet.

| UNIVERSAL - ONE END ONLY |                 |       |                 |       |
